

FIG. 1

The diagram illustrates a vehicle seat assembly in two views. The upper portion shows a side profile of the seat backrest (10) and seat cushion (20) mounted on a frame (72). The lower portion shows a cross-sectional view of the seat assembly, revealing internal mechanical components. Key parts include the seat backrest (10), seat cushion (20), and various mechanical elements such as springs (60, 80), dampers (50), and structural components (12, 14, 18, 21, 22, 23, 44, 46, 62, 74, 76, 78, 84, 86). An arrow labeled "FORWARD VEHICLE MOTION" points upwards, indicating the direction of movement.
